Abstract: The article comments on the popular critique by L. Miletich titled *Syntactic Questions* published in 1899 in the Bulgarian journal of science and education *School Review*. The author provides a summary of Miletich's account of the formal-grammatical theory of the German scholar Fr. Kern and indicates the main problems of native language education at the beginning of the 20th century. The fact has been ascertained that the intervention of academic thought in school education has a positive impact on the learning process and its application by students.

Keywords: syntax of the Bulgarian language, formal-grammatical theory, native language education, textbooks on the Bulgarian language after the Liberation, Lyubomir Miletich, Franz Kern
